PROFILE

I'm a passionate Frontend Developer who loves turning ideas into clean, user-friendly interfaces. Highly motivated to learn and grow, I work confidently with, HTML, CSS, and JavaScript, React and many more to deliver scalable frontend solutions.

WORK EXPERIENCE

Frontend Intern

Mar 2025 - May 2025

ServCrust, Hyderabad

- Built a role-based Angular application using standalone components
- Implemented editable data tables, modals, and dashboards for multiple business modules.

PROJECTS

Indian Cookbook

- Built a simple web-based cookbook that showcases my skills of HTML and CSS
- Used CSS Frameworks just as Tailwind CSS and Bootstrap too.

Weather App

- Developed a simple application that fetches the forecast of any desired city
- Learnt about JSON, API, JavaScript.

Testing of Hypothesis

- Implemented ANOVA test hypothesis using Python, using dataset from Kaggle
- Used various libraries such as Pandas.
